

DARLINGTON

— THIN BRICK —

MetroBrick's *new* **Darlington Thin Brick** collection delivers the character of traditional full and paver brick in a lightweight veneer, offering exceptional design flexibility with the authentic appearance of genuine fired clay.

Designed To Inspire

Darlington features an expanded selection of distinctive textures, along with a wide range of colors, sizes, and finishes.

Free from PCI standard limitations, this collection gives architects and designers greater freedom to create unique, customized projects.

Items in this collection are **conveniently available** in most of Metrobrick's wide selection of colors and select sizes.
