Brick Colors & Textures

METROBRICK® Brick colors include single tones that offer a consistent look and flash range colors that offer shade variations from brick to brick. Single tone and flash range colors can be used on their own or combined to create a unique blend on your wall project's facade. Along with the extensive line of colors, Metrobrick offers thin brick in 6 different textures to add depth and variety to any project.

Sizes & Estimating

METROBRICK is designed with a dovetailed back and strict size tolerances for superior installation and bond performance. METROBRICK offers a variety of standard thin brick sizes to choose from. Custom thin brick sizes are also an option to meet any unique design needs.

METROBRICK®
FASTSHIP

On Time. On Spec. On Site, Fast.

Get thin brick fast with the METROBRICK Fast Ship Program. Ten of our most popular colors and seven of our blend options are available in modular size.

On construction projects, tight deadlines are always an issue. Long lead times often won't work, and anxiously waiting for material is never good. For smaller orders – usually under 10,000 sq. ft. – we created the Fast Ship Program so these color and blend options ship fast to keep you on schedule.
